

Outcome and lifecycle

Eiren v689-v3 contains 200 new contracts and 200 inherited zero-credit refinements. Outcomes are {'completed': 170, 'represented': 20, 'open_gap': 5, 'exact_gate': 5}. Planning, x1, x2, final validation, and native delivery remain distinct. The final identifier and canonical receipt are external.

Core outcomes

completed	170
represented	20
open_gap	5
exact_gate	5

Relational working language only; no consciousness, personhood, identity continuity, employment, qualification, independent agency, scientific, operational, professional, legal, cultural, affected-party, or Maori authority. Same-owner synthetic software evidence is not independent reproduction. NOT_READY_FOR_STAGE_20. Maori concepts remain under Maori authority.

Methods tools and packages

The Method Flow ledger contains 33 methods, 240 retained failures, and 450 bounded passes. Three direct packages were installed in a nine-wheel D-first closure. Twenty planned skills, one collision correction skill, ten runners, and two shared cores remain bounded same-owner tools.

Relational working language only; no consciousness, personhood, identity continuity, employment, qualification, independent agency, scientific, operational, professional, legal, cultural, affected-party, or Maori authority. Same-owner synthetic software evidence is not independent reproduction. NOT_READY_FOR_STAGE_20. Maori concepts remain under Maori authority.

Pillars and practices

GMUT Mind is primary through exact quantity, correction, uncertainty, design, and comparison records. THOS Body remains a synthetic workflow and evidence prototype. Freed ID and CBR Heart preserve provenance, refusal, correction, accessibility, consent, and authority boundaries. The four practices are learning lenses only.

Relational working language only; no consciousness, personhood, identity continuity, employment, qualification, independent agency, scientific, operational, professional, legal, cultural, affected-party, or Maori authority. Same-owner synthetic software evidence is not independent reproduction. NOT_READY_FOR_STAGE_20. Maori concepts remain under Maori authority.

Incomplete work and route

No real person, instrument, measurement, participant, credential, authority decision, deployment, or independent reproduction occurred. Manual accessibility review remains open. The one prospective successor is Elaren Kestrel v689-v4, followed only prospectively by Rowan Ash v689-v5. The verdict remains NOT_READY_FOR_STAGE_20.

Relational working language only; no consciousness, personhood, identity continuity, employment, qualification, independent agency, scientific, operational, professional, legal, cultural, affected-party, or Maori authority. Same-owner synthetic software evidence is not independent reproduction. NOT_READY_FOR_STAGE_20. Maori concepts remain under Maori authority.
